MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by Theodore Lohr, New York, N. Y. Class C, XXc, no. 169440, Dec. 13, 1907; 2 copies received Dec. 13, 1907."

MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by E. J. Meuriot, Paris, France. Class C, XXc, no. 169841, Dec. 16, 1907; 2 copies received Dec. 16, 1907."

Nos. 10-13

MARCH, 1908

WASHINGTON
GOVERNMENT PRINTING OFFICE

MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all composition entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by A. Rouart & cie., Paris, France. Class C, XXc, no. 172862, Jan. 27, 1908; 2 copies received Jan. 27, 1908."

INDEX

NEW SERIES, VOLUME 3

Nos. 14-18

WASHINGTON
GOVERNMENT PRINTING OFFICE

1908

MUSICAL COMPOSITIONS.

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52, as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by Friedrich Hofmeister, Leipzig, Germany. Class C, XXc, no. 174745, Feb. 20, 1908; 2 copies received Feb. 20, 1908."

INDEX

NEW SERIES, VOLUME 3

Nos. 19-22

MAY, 1908

WASHINGTON
GOVERNMENT PRINTING OFFICE

1908

MUSICAL COMPOSITIONS.

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52, as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by Cohan & Harris pub. co., New York, N. Y. Class C, XXc, no. 179170, Apr. 16, 1908; 2 copies received Apr. 16, 1908."

MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all composition entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by Frank M. Holecek, Chicago, Ill. Class C, XXc, no. 180595. May 1. 1908; 2 copies received May 1, 1908."
